

July Project Update

What an exciting Summer at LCA! For almost 40 years we have been anticipating the day when we would be in our own building. And, in July of 2023, we have taken several significant steps towards making that dream a reality.

First, our Board unanimously approved the signing of the contract with Charles Black Construction to begin working on our first academic building. Hallelujah!

Then, we have a planned groundbreaking ceremony planned for August 4th during our Back to School Blast event. It would be an honor to see you there!

In addition to all of this, we began the construction on an athletic field for football and soccer. Grading began in early July and was completed in 3 weeks. Currently, irrigation is being installed. Our hope is to see the sod installed during the first week of school. We would love to see a football game on the field this season! Certainly, the field will be established by soccer season. What an incredible blessing!

While all of these developments thrill our hearts, we still remain focused on accomplishing our mission: partnering with parents to develop Christ-centered servant leaders. No building or field will ever compare to the value of seeing a life changed by the power of the Gospel and God's Word.

Please join us in praying for the 540 students that will join us this Fall. All of these projects are done with them in mind, in order that we can better serve them and their families.

"Lord, we pray for our students and families as we enter another school year. Give our staff strength to faithfully teach your Word, and help us be bold to speak Truth in a world that despises it. Thank you for directing each step of our journey, and thank you for using Your people to bless the ministry of Lanier Christian Academy. Amen!"

David Roberts
